PROFESSIONAL PROFILE

Motivated BSc Mathematical and Computer Sciences student with interests in mathematics, quantitative analysis, data analytics, data science and software development. Combines mathematical reasoning with programming, database development, data analysis and machine learning fundamentals. Experienced in applying analytical and computational methods to practical problems through academic software and data-driven projects, including a full-stack academic analytics platform with a machine-learning component.

EDUCATION

Bachelor of Science in Mathematical and Computer Sciences 2024 – Present
Sol Plaatje University, Kimberley, South Africa

National Senior Certificate (Grade 12) 2023
Khumosejo Secondary School

PROJECTS

APA-DSS: Academic Performance Analytics & Decision Support System Academic Project
Technologies: Node.js, Express.js, MySQL, SQL, Python, Pandas, scikit-learn, Chart.js

- Developed a full-stack academic analytics and decision-support platform alongside a Student Record Management System.
- Used SQL analytics on a relational MySQL database to monitor student, module, programme and faculty performance.
- Built a Python machine-learning pipeline using Logistic Regression to identify academically at-risk students and surface interpretable risk factors.
- Delivered dashboards and reports with Chart.js; designed with responsible and ethical handling of academic data in mind.

Student Record Management System Academic Project
Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MySQL

- Engineered a full-stack web application for managing student records, module enrolments, academic transcripts and institutional reporting.
- Designed a normalised MySQL relational database and implemented CRUD operations through a REST/API-based back end.
- Implemented authentication with role-based access control, and PDF report and transcript generation.

EXPERIENCE

Mathematics (Calculus & Algebra) Tutor February 2026 – Present
Sol Plaatje University

- Provide undergraduate tutoring in Calculus (Semester 1, 2026) and Algebra (Semester 2, 2026).
- Help students develop structured problem-solving and examination techniques.
- Give feedback and guidance to improve conceptual understanding and academic performance.

Applied Mathematics (Mechanics) Tutor February 2025 – June 2025
Sol Plaatje University

- Provided group academic support in Mechanics.
- Simplified complex mathematical and physical concepts and taught problem-solving techniques.
- Supported students in preparing for assessments.

TECHNICAL SKILLS

- **Programming & Software Development:** Python, Java, C++, JavaScript, HTML, CSS, Node.js, Express.js
- **Data & Databases:** SQL, MySQL, Microsoft Excel, Tableau, Power BI, Jupyter Notebook, Pandas, Matplotlib
- **Data Science & AI:** Data Analysis, Data Visualisation, Linear Regression, Logistic Regression, Machine Learning.
- **Networking:** IPv4/IPv6, TCP/IP, Ethernet, Cisco IOS, Cisco Routers & Switches, Network Troubleshooting, Wireless Networking, Network Protocols.

- **Professional Skills:** Problem Solving, Analytical Thinking, Critical Thinking, Communication, Presentation, Teamwork, Time Management

CERTIFICATIONS

Cisco Networking Academy: Network Technician Career Path October 2026
Udacity: AWS AI Practitioner Challenge April 2026
Cisco Networking Academy: Data Analytics Essentials August 2025
Cisco Networking Academy: Data Science Essentials with Python November 2025

ACADEMIC HIGHLIGHTS

- Strong academic performance in a BSc Mathematical and Computer Sciences degree, particularly in mathematics, statistics, programming, numerical methods and mathematical modelling.
- Experience supporting undergraduate students across multiple mathematics modules.
